GENERAL INFORMATION

The Nebraska Payment Center is the processing center for all child support payments. The payments must be made electronically, by mail, or at their walk-up payment window. The payments can be in the form of personal check, credit card, money order, cashiers check or electronic check, as well as cash (walk-in payment only).

All payments must include a coupon on a prescribed form or include the name of payor, Social Security number, county, court case number and name of payee.

Billing statements will be mailed to the payor on or about the 15th of each month. The statement will show the balance due for each month.

WHO DOES WHAT?

Child support enforcement:

The Child Support Enforcement Program helps children obtain financial support from both parents, enables current public assistance recipients to end their reliance on welfare, and can help prevent single parents from entering public assistance.

Child support payment center:

Was established so that there is one location where all child support payments are received.

It is possible to have your payment automatically withdrawn or automatically deposited. See enrollment forms under "Forms and Publications" at:
<http://www.nebraskachildsupport.com/>

Due to accounting errors that have occurred in some of the records, we recommend that you periodically check the records to make sure they accurately reflect the current status of your account. You can obtain this information by calling the Child Support Enforcement office or by obtaining a password and accessing the information online at:

<http://www.nebraskachildsupport.com/>

How is child support determined?

The Nebraska Child Support Guidelines (a mathematical calculation) were developed by the Nebraska Supreme Court to combine the income of both parents to contribute to the support of their children in proportion to their respective incomes. You can find calculation worksheets at:
